

Subject: Exciting News: Easier POW/MIA Reporting with Time-Saving Features for All!

Voyageurs Militaire,

I hope this message finds you well. I've got some exciting news to share that's going to make reporting for the POW/MIA program a whole lot simpler for everyone, especially those of us who may not be super tech-savvy.

### **Why Make Reporting Easier?**

We're introducing a new way to submit your reports online, and it comes with some fantastic perks:

**No More Paperwork Hassle:** Say goodbye to filling out forms by hand. Our new online form is like a digital version of the forms you're used to, but way easier to work with.

**Less Stress, More Updates:** You can share updates whenever you want, and you won't have to wait until the end of the year. It's like sending a quick email, but more secure.

**No Typing Required Once Received:** Worried about typing mistakes? Don't be! Your info goes directly into our system without anyone having to type it all over again.

**Save on Postage:** Forget about mailing things or dealing with scanners. It's all done online, which means no more trips to the post office or finding someone with a scanner.

**Math Calculations Made Easy:** The form will do the math for you! No more spending extra time crunching numbers. The online form will automatically calculate any necessary figures, making the reporting process faster and more accurate.

**Save Time:** Completing the online form is quick and straightforward, meaning you'll spend less time on the reporting process, giving you more time for what matters most to you.

### **Pilot Test Supported by the Correspondant Nationale**

Excitingly, this new reporting system is being supported by the Correspondant Nationale as a pilot test. Your feedback and participation will help shape the future of this streamlined process for everyone in the POW/MIA program and across La Société.

## **Collaborative Reporting for Grand Directeurs**

As the year progresses, if any Grand Voiture requests the information that has been submitted by a Voiture Locale, we will ensure the seamless sharing of that information. This collaborative approach aims to assist Grand Directeurs in compiling comprehensive reports, fostering a stronger and more unified effort in our mission.

## **Designed for Everyone at Every Level**

This reporting tool is intentionally designed to be user-friendly, ensuring that everyone at every level can easily navigate and submit reports. Whether you're a Voiture Locale Directeur, Voiture Locale Correspondant or a Grand Directeur, this tool is tailored to fit your needs and make reporting accessible for all.

## **Paving the Way for Future Members and Leaders**

For us to get in front of the technology that is available, we have to start paving the way for those future members and leaders today. This tool is a great way to do just that for many years to come. It's not only the most simple and cost-effective way but also ensures that our organization remains at the forefront of innovation.

## **Receive a Copy of Your Report**

Here's an extra bonus: each time a report is submitted, you'll automatically receive a copy at the email address you provide in the form. It's our way of making sure you have a record of your contributions.

## **Ready to Try It Out?**

Getting started is super easy. Just click on this link to the Form!

You'll see it's not as tricky as it might sound.

And the best part? We're going to make sure everyone knows about this! A link to the form will be posted on our Nationale website, making it super convenient for everyone to access. The POW/MIA Directeur will attach it in each of his newsletters, and each Sous Directeurs Nationale of POW/MIA will talk about it in their monthly newsletters.

Your input is vital for making this new system work well for everyone, and we truly believe it's going to make reporting a breeze.

If you have any questions or need help, please don't hesitate to reach out. We're here to make this as smooth as possible for you.

Thanks a bunch for your dedication to the POW/MIA program. We look forward to a unified message and building on this valuable tool with you by our side.

For La Société,

Frank "Tank" Hirrill
